3.1.17 RESTORATION OF SUM INSURED: If during the Policy Period, the Selected Sum Insured is reduced or exhausted due to a claim under the Policy, this benefit will restore the Basic sum insured to its original limit

Under the Premium Plan, the opted Sum Insured (excluding any cumulative bonus) will be automatically restored if any single claim—other than the first—during the policy period is equal to or exceeds the total of the Sum Insured and the cumulative bonus accrued under the policy. The following conditions apply:

Conditions:

1. The Sum Insured will only be restored if any single incidence of a claim (except the first), exceeds/equal to the total of Sum Insured and any cumulative bonus accrued under the policy.
2. Restoration will not occur if the first incidence claim fully exhausts the total of Sum Insured and any cumulative bonus or if multiple smaller claims together exhaust the opted Sum Insured and any

cumulative bonus accrued under the policy.

3. **Eligibility for restored sum insured:**
    a. **Individual Sum Insured:** For policies where each member has a separate Sum Insured, the restored Sum Insured can only be utilized for future claims arising from different illnesses, injuries, or surgical procedures than those that initially exceeded the opted Sum Insured and any cumulative bonus accrued under the policy for the same member.
    b. **Floater/Floater-Floater Option:** For policies where the Sum Insured is shared among family members, the restored Sum Insured will be available exclusively to the same member for future claims arising from illnesses, injuries, or surgical procedures **that are different from** those that initially exhausted the opted Sum Insured and any cumulative bonus accrued under the policy. The restored Sum Insured will also be available to other insured family members.
4. **Policy Period Limitation:** The restored Sum Insured is available only for the same policy period and cannot be carried forward to the next policy term.
5. Restoration of the Basic Sum Insured, subject to the above conditions, is allowed up to a maximum of **three** times during the policy period.

Examples:

1. Mr. X purchases a policy with a Sum Insured of ₹5 lakhs If his first incidence of claim fully utilizes the entire sum insured, the restoration benefit will not apply.
2. Mr. Y purchases a policy with a Sum Insured of ₹5 lakhs His first incidence of claim amounts to ₹1 lakh, and later, his second incidence of hospitalization incurs ₹5.5 lakhs in expenses, which exceeds the Sum Insured. In this case, the policy will restore the full ₹5 lakhs for any future hospitalisations within the same policy period that are unrelated to the illnesses, injuries, or surgical procedures that exceeded the basic Sum Insured.

Under the **ELITE Plan**, Under the Elite Plan, opted Sum Insured (excluding any cumulative bonus) will automatically be restored if any single incidence of a claim during the policy period exceeds/equal to the total of the Sum Insured and any cumulative bonus accrued under the policy. The following conditions apply:

Conditions:

1. The restoration benefit is triggered only if any single incidence of a claim exceeds/equal tothe total of Sum Insured and any cumulative bonus accrued under the policy.
2. Restoration will not occur multiple smaller incidents of claims together exhaust the total of Sum Insured and the cumulative bonus accrued under the policy.
3. **Eligibility for restored sum insured:**
    a. **Individual Sum Insured:** For policies where each member has a separate Sum Insured, the restored Sum Insured can only be utilized for future claims arising from different illnesses, injuries, or surgical procedures than those that initially exceeded the total Sum Insured and any cumulative bonus accrued under the policy for the same member.
    b. **Floater/Floater-Floater Option:** For policies where the Sum Insured is shared among family members, the restored Sum Insured will be available exclusively to the same member for future claims arising from illnesses, injuries, or surgical procedures **that are different from** those that initially exhausted the total Sum Insured and any cumulative bonus accrued under the policy. The restored Sum Insuredwill also be available to other insured family members.
4. **Policy Period Limitation:** The restored Sum Insured is available only for the same policy period and

cannot be carried forward to the next policy term.

5. Restoration of the Basic Sum Insured, subject to the above conditions, is allowed up to a maximum of **five** times during the policy period.

Examples:

1. If Mr. X's policy with a ₹5 lakhs Sum Insured is fully used by his first hospitalisation claim, the restoration benefit will restore the full ₹5 lakhs. This restored amount can only be used for future claims in the same policy period, as long as they are for different illnesses, injuries, or surgical procedures than the one that exhausted/exceeded the basic Sum Insured.
2. Mr. Y also has a policy with a Sum Insured of ₹5 lakhs. His first hospitalisation claim is ₹1 lakh, and his second claim is ₹4.5 lakhs Since no single claim exceeds the Sum Insured, the restoration benefit will not be triggered.

Restoration Benefit for **ROYAL Plan (₹10** lakhs**, ₹15** lakhs**, ₹20** lakhs**, ₹25** lakhs). This benefit automatically restores the Sum Insured to its opted Sum Insured (excluding any cumulative bonus) amount if a single member or policyholder fully exhausts the total of the Sum Insured and the cumulative bonus accrued under the policy due to multiple incidences of claim within the policy period.

Conditions:

1. **Full Exhaustion:** The restoration benefit is applicable only when the total of the Opted Sum Insured and any cumulative bonus has been completely utilized by a single member or policyholder during the policy period.
2. **Eligibility for New Claims:**
    a. **Individual Sum Insured:** When each member holds a separate Sum Insured, the restored Sum Insured can only be utilized for future claims arising from illnesses, injuries, or surgical procedures that are different from the conditions that led to the initial depletion.
    b. **Floater or Floater-Floater Option:** In cases where the Sum Insured is shared among members, the restored Sum Insured will be available exclusively to the same member for future claims arising from illnesses, injuries, or surgical procedures **that are different from** those that initially exhausted the total of the Sum Insured and the cumulative bonus. The restored Sum Insured will also be available to other insured family members.
3. **Policy Period Limitation:** The restored Sum Insured is available only for the same policy period and cannot be carried forward to the next policy term.
4. There is no restriction on the number of times the opted Sum Insured can be restored within the same policy period, provided the above conditions are met.

Example:

1. **Individual Policy:** Mr. X purchases a policy with a Sum Insured of ₹10 lakhs. Mr. X incurred ₹5 lakhs for the first incidence of hospitalization claim and subsequently for the second hospitalization incurred ₹7 lakhs, which resulted in full utilization of the Sum Insured. In this case, the Sum Insured will automatically be restored to ₹10 lakhs for any subsequent hospitalization within the same policy period for different illnesses, injuries, or surgical procedures than those led to exhausted the basic Sum Insured.
2. **Floater Policy:** Mr. Y purchased a floater policy with a Sum Insured of ₹10 lakhs for himself and his spouse. Mr. Y incurred ₹5 lakhs for his hospitalisation claim, afterwards his wife also got

hospitalised and incurred ₹7 lakhs which resulted in full utilization of the Sum Insured. In this scenario, the Sum Insured will **not** be restored as per the floater policy conditions.

Restoration Benefit for the **ROYAL Plan (₹50** lakhs **and above).** The benefit will automatically be restored to opted Sum Insured (excluding any cumulative bonus) after full utilization the total of the Sum Insured and any cumulative bonus accrued under the policy during the policy period. Below are the conditions for availing the restoration benefit:

Conditions:

1. **Full Exhaustion:** The Sum Insured and any cumulative bonus must be fully utilized before the restoration benefit is applied.
2. **Eligibility for New Claims:**

    a. **Individual Sum Insured:** If each member has a separate Sum Insured, the restored Sum Insured can only be used for future claims.
    b. **Floater or Floater-Floater Option:** For policies where the Sum Insured is shared, the restored Sum Insured will be available to all members, regardless of individual usage. The restored Sum Insured can only be used for future claims.

3. **Policy Period Limitation:** The restored Sum Insured is applicable only for the same policy period and cannot be carried forward to the next policy term.
4. There is no restriction on the number of times the basic Sum Insured can be restored within the same policy period, provided that the above conditions are met.

Example:

1. **Individual Policy:** Mr. X purchases a policy with a Sum Insured of ₹50 lacs. After hospitalization, he incurs ₹51 lacs for a kidney transplant and ₹26 lacs for a second claim, fully exhausting the Sum Insured. In this case, the policy will automatically restore ₹50 lacs for any future claims during the same policy period, including for kidney transplantation.
2. **Floater Policy:** Mr. X purchases a floater policy with a Sum Insured of ₹50 lakhs, shared with his spouse. Mr. X incurs ₹30 lakhs for one claim, and his spouse incurs ₹25 lakhs for another, fully exhausting the total Sum Insured. In this scenario, the policy will restore the original Sum Insured of ₹50 lakhs, available for future claims by either member within the same policy period.

Note: -

1. An incidence of claim refers to the total medical expenses incurred as a result of a single medical event, such as an illness, injury, or surgical procedure. This includes costs associated with hospitalization, pre-hospitalization treatment, and post-hospitalization care.
2. The Basic Sum Insured refers to the amount chosen by the policyholder, which determines the coverage limit for medical insurance benefits.

3.1.18 GEOGRAPHICAL EXTENSION TO SAARC COUNTRIES: The Policy will cover Insured Persons visiting other SAARC (South Asian Association for Regional Cooperation) countries, including Afghanistan,

Bangladesh, Bhutan, Maldives, Nepal, Pakistan, and Sri Lanka. No additional premium will be charged for this extension. However, the Insured Person must request this extension in writing before leaving the country, providing details of the duration, purpose, and country (ies) of the visit. An endorsement for such an extension will be issued by the Company.

Please note that cashless services will not be available for treatment received in countries outside India. Claims for such treatments will be processed on a reimbursement basis only.

3.1.19 Specialized Oncology Test/ Investigation (Outside India): The Policy will cover the cost of Specialized Oncology Test/Investigation as specified in the Benefit Table. The Insurer will reimburse the claim amount, subject to the limits prescribed, provided the following conditions are met:

- **Prescribing Physician:** The test must be prescribed by the treating oncologist and test sample must be collected in a medical facility located in India.
- **Medical Necessity:** The test must be necessary for assisting diagnosis, treatment and monitoring of cancer by the treating oncologist.
- **Recognized Facility:** The test must be performed in a recognised foreign medical facility.

The coverage for Specialized Oncology Test/Investigation may include the cost of the test itself, as well as any associated consultation fees.

3.1.20 NCB (NO CLAIM BONUS): The Policyholder will be eligible for a No Claim Bonus (NCB) if no claims have been made against the Policy during the previous Policy Year. Such NCB shall be paid as per the choice/express consent of the policyholder in **eithe**r of the following forms at the time of renewal.

Cumulative Bonus (CB): Enhancement of the Sum Insured (SI)
Discount on Premium: Reduction in renewal premium

a) Cumulative Bonus: The NCB will be calculated as [x%] of the Opted Sum Insured for each claim-free Policy Year. The maximum NCB shall be as specified in the Benefit Table.

If the Policyholder claims during the Policy Year, the accrued NCB will be reduced by [x%] of the Opted Sum Insured at the time of Policy Renewal.

Note: The NCB cannot be less than zero. If a claim is made, the NCB will be reduced to zero, but it will not become negative.

NCB Benefit accrual:

Individual Option: For the Individual Option, each Policyholder will accrue NCB benefits separately, regardless of claims made by other Policyholders under the same Policy.

Floater Option: Under the Floater Option, NCB will only accrue if none of the members are covered under the policy claim during the previous policy year.

Floater-Floater Option: For the Floater-Floater Option, each floater group will accrue NCB benefits separately, regardless of claims made by members of other floater groups.

b) Discount in Premium: If a Policyholder is eligible for NCB, then he/she is required to choose either a cumulative bonus or discount on the premium option. This facility will be available each time while renewing the policy.

How Cumulative Bonus/ Discount of Premium are operated:

Example Scenarios:

Scenario 1:

Original Sum Insured (SI): ₹5,00,000
The policyholder has the option to choose between a Cumulative Bonus (CB) that increases their sum insured, or a Discount on Premium, at the time of renewal.

Original Sum Insured	Fresh/ Renewal	Selected Option	CB Amount	Premium Discount	Claim Status
₹ 5,00,000	Fresh Policy	-	-	-	No
₹ 5,00,000	Renewal	CB	₹ 50,000	-	No
₹ 5,00,000	Renewal	Discount	-	2% of Premium	No
₹ 5,00,000	Renewal	CB	₹ 1,00,000	-	Yes
₹ 5,00,000	Renewal	No CB/Discount	₹ 50,000	-	No
₹ 5,00,000	Renewal	CB	₹ 1,00,000	-	No
₹ 5,00,000	Renewal	Discount	₹ 1,00,000	2% of Premium	No

- **No Claim Year**: In years when no claim is filed, the policyholder can either opt for a Cumulative Bonus (CB), which increases the sum insured by a certain amount (e.g., ₹50,000 or ₹1,00,000 based on the policy terms) or receive a discount on their renewal premium (e.g., 2% of the premium).
- **Claim Impact**: When a claim is filed, the policyholder is not eligible for a CB or premium discount at renewal. In this scenario, the Cumulative Bonus is reduced by a step (in this case, ₹50,000 or 10% of the original sum insured). The policyholder can still choose between a CB or premium discount in future renewals, provided no claim is filed that year.

Scenario 2:

Original Sum Insured (SI): ₹5,00,000
The policyholder opted for an enhanced Sum Insured of ₹10,00,000.

Original Sum Insured	Renewal Sum Insured	Selected Option	CB Amount	Premium Discount	Claim Status
₹ 5,00,000	Fresh Policy	-	-	-	No
₹ 10,00,000	Renewal	CB	₹ 50,000	-	No
₹ 10,00,000	Renewal	CB	₹ 1,50,000	-	No
₹ 10,00,000	Renewal	CB	₹ 2,50,000	-	Yes
₹ 10,00,000	Renewal	No CB/Discount	₹ 1,50,000	-	Yes
₹ 10,00,000	Renewal	No CB/Discount	₹ 50,000	-	Yes
₹ 10,00,000	Renewal	No CB/Discount	-	-	No
₹ 10,00,000	Renewal	Discount	-	2% of Premium	No

₹ 10,00,000	Renewal	CB	₹ 1,00,000	-	No
₹ 10,00,000	Renewal	CB	₹ 2,00,000	-	No

- **No Claim Year**: If no claims are made, the policyholder can accumulate a significant Cumulative Bonus, potentially increasing their sum insured by a substantial amount (up to ₹2,50,000 in this example). This enhances the policyholder's coverage over time.
- **Claim Impact**: When a claim is filed, the policyholder is not eligible for a CB or premium discount at renewal. The Cumulative Bonus (CB) is reduced by a specified percentage of the original Sum Insured (SI). For instance, if a claim is made when the CB is ₹2,50,000 and the reduction is 10% of the Sum Insured, the CB will decrease by ₹1,00,000 (10% of ₹10,00,000). However, the reduction will be limited to the available CB amount, meaning the CB will decrease by the smaller of either the percentage of the Sum Insured or the remaining CB balance (i.e., min (x% of Sum Insured, Balance CB)). In future renewals, the policyholder can once again choose between the CB and a premium discount, provided no claim is made during the previous policy year.

3.1.21 TERM OF POLICY/ PREMIUM FREQUENCY:

- **1-Year Policy:** The policyholder has the option to pay the premium Monthly, Quarterly, Half-Yearly, or Annually.
